## Projects

### Full Stack Web Developer - Gourment Affair

Academic Experience: Henry Bootcamp

**Description:** It is a platform designed to transform the way high gastronomy is enjoyed. We connect talented chefs with diners seeking unique and exclusive moments in fine dining.

**Front:** NextJs, TypeScript, TailWind.

**Back:** NestJs, Prisma.

**Database:** PostgreSQL

**Repo:** <https://github.com/NAyalaB/pryfront>

### Full Stack Web Developer - TechnoHeaven

Academic Experience: Henry Bootcamp

**Description:** It is a revolutionary e-commerce platform designed to meet all your technological needs. On our platform, we offer a wide range of cutting-edge tech products, from innovative gadgets to electronic devices.

**Front-end:** Next.js, TypeScript, Tailwind.

**Back-end:** Express.

**Database:** PostgreSQL

**Repo:** <https://github.com/banrostin1312/E-commerce>

### Full Stack Web Developer - Turno-Manager

Academic Experience: Henry Bootcamp

**Description:** TurnoManager is a shift management application designed to optimize the organization and scheduling of shifts in businesses or services that require efficient time management. Developed with a combination of modern technologies. **Front-end:** React, TypeScript, Tailwind. **Back-end:** Express.

**Database:** PostgreSQL **Repo:** <https://github.com/banrostin1312/Turno-Manager>

## Full Stack Web Developer - App-Cinema

Academic Experience: Henry Bootcamp

**Description:** App-Cinema is a web application developed in [HTML, CSS, JS] that allows users to explore and discover movies through integration with a movie API. The application provides an intuitive interface for searching, viewing details, and exploring different movie categories.

**Front-end:** HTML, CSS, JS **Back-end:** MongoDB, Mongoose.

**Database:** MongoDB

**Repo:** <https://github.com/banrostin1312/App-Cinema>

## Full Stack Web Developer - Self-Practice

Academic Experience: Outside of Henry

**Description:** Six months before starting the bootcamp, I dedicated time to self-taught web development. During this period, I focused on strengthening my skills in key technologies such as React, HTML, CSS, and JavaScript. I took advantage of a variety of online courses and interactive exercises to deepen my understanding and proficiency in these areas.

**Front-end:** HTML, CSS, JS, Next.js

**Back-end:** MongoDB, Mongoose, Express.

**Database:** MongoDB, PostgreSQL

## Professional Experience

### Full Stack Web Developer | [07/2023] – [Present] [Henry]

- Developed scalable web applications using Next.js and React, improving rendering speed and optimizing user experience.
- Implemented modern and responsive styles with Tailwind CSS, ensuring an attractive and consistent user interface across all devices.
- Utilized Redux for global state management in applications, facilitating data synchronization and improving code maintainability.
- Worked with PostgreSQL and MongoDB to design and manage databases, optimizing queries and structures to enhance performance.
- Implemented the ORM TypeORM for managing relational databases in Node.js applications, facilitating integration and data management.
- Used GitHub for version control and team collaboration, ensuring efficient code management and an agile workflow.

## Technologies

**Programming Languages:** JavaScript, TypeScript

**Frameworks and Tools:** Next.js, React, Tailwind CSS, Redux, TypeORM, Express, Mongoose.

**Databases:** PostgreSQL, MongoDB

**Tools:** GitHub, Slack

**Agile:** Scrum

**Deployment and Hosting:** Vercel

## Education

- Full Stack Web Developer. Henry Bootcamp. 800 hours of theoretical and practical coursework. 2023-2024.
